## Bethesda Academy Cuts Ribbon for New Dining Hall and Cottage Renovations

Bethesda Academy, in Savannah, Georgia, enlisted the services of Batson Associates to renovate their existing dining hall and two student cottages. Adhering to the school's academic calendar created a limited time period for design and construction. The Contractor was brought on early in the project to ensure that the seven week construction schedule would be met. All parties communicated daily and worked diligently to ensure the opening of the dining hall and two cottages before the academic year was to commence. Batson Associates' design provided Bethesda with a renovation that is complementary to their core values and tradition, while providing the latest in energy efficiency and technology. The renovations of the campus's dining hall and two cottages will be enjoyed and utilized by many generations of the school's future students.
