

## Athens Regional Medical Center Dedicates New Cancer Care Facility

***"By listening to us and understanding our vision for this unique facility, the design team brought to life a beautiful building that embodies the healing and support mission of the Cancer Care Program."***

**- John Drew, CEO, ARMC**

Batson Associates is pleased to announce the opening of the Athens Regional Medical Center, Griffin-DuBose Healing Lodge for Cancer Support. Batson Associates worked closely with the hospital administration and staff to develop the Lodge. The rustic structure with a craftsman influence, was conceived as a retreat for patients to gather and learn how to live with their diagnosis and manage the regimen of medical care required for treatment. The Lodge provides space for support group meetings, cooking and nutrition education, exercise and art activity areas, massage therapy, private consultation and outdoor gardens, porches and patios. The capital for the facility and the on-going costs of the Cancer Care program is funded by private donations and the programs are available to any patient seeking support in their battle against cancer.
